

# Infinea Tab C

for iPhone Plus, iPad & iPad Mini

## Meet Your Mobile Workstation

In order to remain competitive in today's dynamic retail landscape, employees must be able to meet their customers anywhere on the store floor. Empower your employees to help their customers with an untethered workflow. The Infinea Tab C is a dual purpose 1D/2D barcode scanner and credit card reader, enabling employees to transform the device into a mobile point-of-sale (mPOS) terminal.

### 1D/2D Barcode Scanner

From QR to barcodes, the Infinea Tab C supports a variety of scanning needs. Both one and two-dimensional barcodes can be read in any direction. Expand your workflow with the ability to read both in print and onscreen (LCD) barcodes.

### Bluetooth Enabled

The Infinea Tab C supports a connected workflow with Bluetooth compatibility. Connect the Infinea Tab C to other mobile devices such as a wireless printer for rapid receipt or label processing.

### Mobile Payment Processing

Increase your payment capability with a variety of payment options. The Infinea Tab C rapidly processes payments with a bidirectional Magnetic Stripe Reader (MSR) as well as EMV (Chip). The device also features optional Near Field Communication (NFC) functions including Apple Pay and Samsung Pay.

### LED Indicators

The Infinea Tab C features intuitive haptics for intelligent workflows. The device includes two LEDs for battery and device status and four LEDs for contactless payment transactions. It also includes an electromagnetic buzzer for important alerts.

### Safe, Secure, Certified

Protect your payments on a device you can trust. The Infinea Tab C is certified with PCI PTS 4.x, EMV Level 1, EMV Level 2, EMV Contactless Level 1, FCC, CE, and RoHS.

### Easy Integration

Converting your iPhone or iPad into a powerful mobile solution has never been easier. The Infinea Tab C was designed specifically for iOS and is compatible with iPad mini, iPad Air, and iPhone 6 Plus, 6s Plus, 7 Plus, and 8 Plus.
