

Next-level power. Built for the new way business is done.

Introducing the Galaxy Note10 | Note10+ | Note10+ 5G.

The ability to work anywhere and anytime is fundamental to today's business. The Samsung Galaxy Note10 puts that power in your hands. You'll experience powerful productivity. Powerful performance. Powerful speed. All with powerful security. They're the smartphones designed to perform at the speed of now.

The power of productivity.

Precision productivity. The Galaxy Note10 integrates Microsoft OneDrive and Office apps to make the S Pen a magic wand for work. Handwrite notes that convert to text and save in Word, mark up documents or edit presentations, and advance PowerPoint slides with a flick of the S Pen.

Seamless integration. With integrated Microsoft OneDrive and Office, there's no need to download additional apps. And use single sign-on to access both your Samsung and Microsoft accounts.¹

Desktop computing, mobile-powered. With the next-generation Samsung DeX for PC, simply connect to your Macbook or a Windows 10 laptop with a USB-C cable to launch Samsung DeX for PC.² You can easily access, update or share files on your Galaxy Note10 while also accessing all your apps, using your phone to make calls or text.

See more, do more. Give your team the power to see and do more with the 6.3" Note10, 6.8" Note10+ and 6.8" Note10+ 5G nearly bezel-less Infinity Display.³

Capture, edit and share with a camera that can do it all. Film and annotate video with ease and precision using the S Pen. Virtualize your conference, capture your field of view like never before, and even take precise measurements.

Upload, download and collaborate over the hyperfast 5G network. Search nearly instantaneously, stream with minimal lag, and download in near real time.⁴

The power of performance and speed.

Power to last your entire workday. Our most powerful battery yet and super-fast charging⁵ support you throughout your busiest day.

Everything, right-now fast. The Galaxy Note10 delivers speed plus neural network processing that optimizes your performance.

Stream at the speed of your working day. The Galaxy Note10 enables faster downloads and uninterrupted streaming.

Fast transitioning and seamless roaming, now and into the future. Galaxy Note10 enables fast transitioning across access points as well as seamless roaming with 802.11R, and it's ready for Wi-Fi 6.

Laptop storage without the laptop. The Galaxy Note10 provides you with storage without the bulk.^{6,7}

Store, manage and process near-limitless data in the cloud. Pair Note10+ 5G's capabilities with a hyperfast 5G connection⁸ and nothing will slow you down.

The power of security and control.

Keep your data safe and access data securely. Samsung Knox protects the Galaxy Note10 from the chip up. Trusted by 29 governments around the world, Knox security is always on.

The support you need to keep running your business. Samsung Enterprise Tech Support offers support for Samsung hardware- and software-related issues.⁹

Securely store, manage and process data in the cloud. The Note10+ 5G empowers you with hyperfast download speeds and minimal lag.⁸ Knox Business Services lets you configure settings and remotely lock or wipe devices.

5G The power of 5G.

Communicate with power and speed. The Samsung Galaxy Note10+ 5G enables you to create an 802.11ac hotspot, but with speeds up to 650Mbps. That's approximately three times faster than Wi-Fi. You can send and receive confidential business data over a secure 5G carrier network, rather than an unsecured public Wi-Fi network (Unlocked by Samsung version not available for Galaxy Note10+ 5G). You can also connect to any dedicated mmWave network.
